

# Sea Kayaking- Fjords on Senja Island

Kayaking is one of our favorite ways to spend time outdoors. The ocean is fundamental to Senja Island culture and kayaking is a great way to experience it in the Arctic Maldives.

Kayak along fjords with crystal clear waters and beaches with their pure white coral sand. Small island around us and often there will be birds singing and seals swimming among us.

Before we start the tour, you will receive an introduction in kayaking – it does not take long to learn the basics! Experience the ocean in an intense and exciting way. The weather will decide the exact route we will paddle and the guide will adjust the tour to wind and weather conditions to guarantee the best possible experience.

Possible to personalize the trip and include extra experiences and accommodations

## Includes:

- Pick-up and transfer Finnsnes speed boat terminal
- Guide
- Kayaking equipment
